Experience

Senior Frontend

Santander

São Paulo, Brazil 08/2023 - Current

- Development at Santander's fintech "Empréstimo Sim", participating in technical discussions and working on projects impacting over **20 million users**.
- Building projects from scratch: gathering requirements, planning architecture, executing, and writing tests.
- Applying best practices and scalable architecture patterns.
- Working with **React, Vue, Flutter and Ionic** to ensure cross-device compatibility.
- Managing CI/CD pipelines, pull requests, code reviews, and unit/integration/E2E testing.

Senior Frontend

MJV Technology

São Paulo, Brazil 01/2021 - 07/2023

- Worked as an outsourced engineer for Santander and was later invited to join the team directly due to outstanding performance.
- Complete migration of a system from **Vue.js** to **React**
- Translated UI/UX designs from **Figma** into functional user interfaces.
- Ensured code followed **SOLID** and **Clean Architecture** principles.
- Integrated **REST** and **GraphQL APIs** with the frontend.

Mid-level Frontend

Pagtel

Alphaville, São Paulo 06/2019 - 01/2021

- I developed a promotional website for **Uber** to introduce a new product — a mobile SIM card designed specifically for drivers, offering exclusive benefits. The project included UX-focused design, responsive layout, clear communication of the product's value proposition, and tests
- Focused on UX, responsive design, clear communication, and thorough testing.
- Utilized **React, Jest, React Testing Library**, and **C#**.
- Create reusable components to ensure scalability and maintainability of the code.
- Implement best practices for efficient rendering in React.
- Handled authentication flows using OAuth, JWT, and session management.

Mid-level Frontend

Corebiz

Alphaville, São Paulo 06/2017 - 06/2019

- Delivered solutions for clients including Motorola, Sony, and Grupo Boticário.
- Built over 60 custom e-commerce platforms using **jQuery** and **React** on the **VTEX** platform.
- Improved performance through lazy loading, asset optimization, and caching strategies.
- Applied agile methodologies throughout project lifecycles.

Junior Frontend

Corebiz

Alphaville, São Paulo 06/2016 - 06/2017

- Fixed bugs and updated legacy codebases.
- Contributed to small features and enhancements.
- Gained early experience in agile team environments.

Apprentice

Pfizer

Itapevi, São Paulo 05/2013 - 04/2014

- Responsible for document control and administrative procedures, both internal and external.

Education

Bachelor of Computer Science

Universidade Paulista

São Paulo, Brazil 06/2017 - 04/2021

- Major in Computing Science

Computer Technician with Emphasis on Programming

ETEC - Escola Técnica

São Paulo, Brazil 01/2015 - 06/2017

- Technician in Computer
